As a highly skilled and motivated front-end web application developer, I bring extensive experience working with multiple organizations. My expertise lies in React.js, JavaScript, HTML, CSS, and Tailwind CSS. Additionally, I excel in web scraping, Python, Tkinter GUI development, heat mapping, and cross-platform game development. I am committed to applying my professional skills to contribute to the growth of your organization while advancing my own career. A quick learner and team player, I am eager to tackle challenges both collaboratively and independently. I seek an opportunity in a dynamic organization where my expertise and skills will be fully utilized.
